PRODUCT CATALOGUE

DRACO

Manufacturer of professional cleaning and disinfecting agents for cleaning companies

Convenience, performance and cleaning efficiency

For many years DRACO products have proven to be excellent in all places where maintaining cleanliness is particularly important: schools, kindergartens, institutions, public facilities, as well as offices, stores and warehouses.

Our comprehensive range of products and proven technologies will save your time, reduce costs and guarantee health and safety. To meet the needs of our customers, we are still working intensively on new solutions. The formulas of our cleaning and disinfecting agents are based on carefully selected raw materials, chosen so as to achieve maximum cleaning effectiveness and efficiency at the lowest possible concentrations of the finished product and to minimise the risk of environmental impact.

For our customers, we are not just a chemical supplier, but a proven partner you can trust. We provide professional support in choosing the right product package and emergency assistance. We have a well-organized and extensive distribution network throughout the country.

See our offer of cleaning and disinfecting agents for professional cleaning services.

CLEANING AND CARE

GLASS Clean

Glass surface cleaning

- Prevents the repeated deposition of dirt and dust
- Efficient at low concentration
- Contains no ammonia

USE

Concentrate product for washing windows, mirrors, window frames and all washable glass and plastic surfaces.

pH 1% 8

DOSAGE

5 - 20 ml / 1 L running water

PACKAGING

Bottle: 15 x 1 L

code: 5010001

Canister: 4 x 5 L

code: 5010005

SURFA Clean

Washing of washable surfaces

- Prevents the repeated deposition of dirt and dust
- Efficient at low concentration
- Leaves a fresh citrus fragrance

USE

Universal product for everyday cleaning of all washable surfaces.

pH 1% 7

DOSAGE

5 - 20 ml / 1 L running water

PACKAGING

Bottle: 15 x 1 L

code: 5020001

Canister: 4 x 5 L

code: 5020005

SURFA Orange

Washing of washable surfaces

- Removes pencil, felt-tip pen and rubber traces
- Efficient at low concentration
- Leaves a fresh citrus fragrance

USE

A universal product for everyday and thorough cleaning of all washable surfaces.

pH 1% 8

DOSAGE

5 - 20 ml / 1 L running water

PACKAGING

Bottle: 15 x 1 L

code: 5030001

Canister: 4 x 5 L

code: 5030005

FURNITURE Care

Furniture cleaning and care

- Prevents the repeated deposition of dirt and dust
- Gives long-lasting gloss
- Refreshes colours

USE

Product for everyday cleaning and care of wooden, wood-like and varnished surfaces.

DOSAGE

Ready to be used

PACKAGING

Spray: 13 x 750 ml

code: 50500007

Canister: 4 x 5 L

code: 5050005

SURFACES

CLEANING AND CARE

GLASS & MIRROR

Glass and mirror surface cleaning

- Cleans the surface effectively without smearing it
- Evaporates quickly, no smudging
- Prevents the repeated deposition of dirt and dust

USE

Alcohol-based product ready for use in washing windows, mirrors, window frames, exhibition counters and all washable surfaces.

DOSAGE

Ready to be used

PACKAGING

Spray: 13 x 750 ml
Canister: 4 x 5 L

AUXILIARY DEVICES

ABS DOSING UNIT

Elbow-operated dispenser for liquid soaps and alcohol-based hand disinfectants.

TECHNICAL PARAMETERS:

- Dosing unit volume: 1 L
- Easy operation and dispenser filling
- Possibility to adjust dosage
- Material: ABS plastic

FLOW DOSING UNIT

The flow dosing unit for collection, dissolution and proportional dosing of chemical products.

TECHNICAL PARAMETERS:

- Can be easily mounted on the wall or a trolley
- Possibility of dosing 4 chemical products
- Accurate dosage adjustment
- Efficiency: 4 - 16 l/min
- Material: PE plastic

FLOW DOSING UNIT

The flow dosing unit for fast filling of cleaning machines with vessels up to 120 L.

TECHNICAL PARAMETERS:

- Can be easily mounted on the wall or a trolley
- Accurate dosage adjustment
- Efficiency: 15 l/min
- Material: PE plastic

MANUAL DOSING PUMPS

- Polypropylene construction - resistant to impacts and chemicals
- Improves occupational health and safety
- Dosage from 10 to 30 ml

USE

Pumps for dosing liquid products and chemicals.
For use on canisters from 5 L to 30 L.

PUMPING DEVICES

- Construction of polypropylene and polyethylene - resistant to chemicals
- Innovative and patented pumping technology
- Provides both up and down movement - resulting in a continuous and fast flow
- Immersion into the base of the container makes it possible to completely empty the barrel

USE

Piston pumps designed to pump a wide range of liquid products and chemicals.

PACKAGING

Barrel pump 60L: cartons of 75 pcs.
Barrel pump 200L: cartons of 50 pcs.
