DRACO

Manufacturer of professional cleaning and disinfecting agents for cleaning companies

Convenience, performance and cleaning efficiency

For many years DRACO products have proven to be excellent in all places where maintaining cleanliness is particularly important: schools, kindergartens, institutions, public facilities, as well as offices, stores and warehouses.

Our comprehensive range of products and proven technologies will save your time, reduce costs and guarantee health and safety. To meet the needs of our customers, we are still working intensively on new solutions. The formulas of our cleaning and disinfecting agents are based on carefully selected raw materials, chosen so as to achieve maximum cleaning effectiveness and efficiency at the lowest possible concentrations of the finished product and to minimise the risk of environmental impact.

For our customers, we are not just a chemical supplier, but a proven partner you can trust. We provide professional support in choosing the right product package and emergency assistance. We have a well-organized and extensive distribution network throughout the country.

See our offer of cleaning and disinfecting agents for professional cleaning services.

WASHABLE SURFACES CLEANING AND DISINFECTION

CLEANSteril DDA

Alkaline cleaning-degreasing-disinfecting product

- Dissolves and disperses heavy protein and grease stains as well as burns
- Has bactericidal and fungicidal properties
- Safe for light metal, glass and aluminum surfaces

USE

Slightly alkaline product with strong degreasing properties for manual and foamed cleaning and disinfection of small appliances, machine parts and all washable surfaces.

DOSAGE

Manual cleaning: 0.5 - 2%
Foam cleaning: 2 - 5%

PACKAGING

Bottle: 15 x 1 L code: 1260001
Canister: 4 x 5 L code: 1260005

STAR Cream

Washing and polishing of washable surfaces

- Cleans surfaces effectively without scratching
- Removes persistent stains, deposits and discolourations
- Gives gloss effect to cleaned surfaces.

USE

Liquid product in the form of milk for cleaning washable surfaces made of plastics, glass, ceramics, porcelain, stainless steel and stone.

DOSAGE

Ready for use

PACKAGING

Bottle: 15 x 1 L code: 2260001
Canister: 4 x 5 L code: 2260005

STAR Active

Cleaning and degreasing of washable surfaces

- Cleans surfaces effectively without scratching
- Removes persistent stains, deposits and discolourations
- Safe for hard surfaces

USE

Powder for cleaning washable surfaces made of plastics, glass, ceramics, porcelain, stainless steel and stone.

DOSAGE

Ready for use

PACKAGING

Bottle: 15 x 1 kg code: 2270001
Bucket: 6 kg code: 2270005

WASHABLE SURFACES DEGREASING AND REMOVAL OF BURNS

GREASE Remover

Cleaning and degreasing of burnt surfaces

- Dissolves heavy grease stains and scorching
- Efficient at low concentration
- Application temperature up to 50 ° C

USE

Concentrated, high-alkaline product for washing and degreasing of burnt pots, pans, baking trays, grills, gratings, deep fryers, ovens, toasters and other devices and washable surfaces.

DOSAGE

Manual cleaning: 2 - 5%
Foam cleaning: 5 - 10%

PACKAGING

Bottle: 15 x 1 L code: 2130001
Canister: 4 x 5 L code: 2130005

GREASE Cutter

Cleaning and degreasing of burnt surfaces

- Dissolves heavy grease stains and scorching
- Ensures 100% of adhesion to burnt surfaces
- Application temperature: up to 50°C

USE

A high-alkaline product in the form of gel, for washing and degreasing of burnt pots, pans, baking trays, grills, gratings, deep fryers, ovens, toasters and other devices and washable surfaces.

DOSAGE

Ready for use

PACKAGING

Bottle: 15 x 1 L code: 2140001
Canister: 4 x 5 L code: 2140005

GREASE Express

Washing and degreasing of hot surfaces

- Dissolves heavy grease stains and scorching
- To be used on hot surfaces
- Application temperature: up to 180°C

USE

Alkaline product for washing and degreasing of surfaces during the operation of such equipment as grills, cookers, ovens, toasters and other cooking appliances at high temperatures.

DOSAGE

Ready for use

PACKAGING

Spray: 13 x 750 ml code: 2150007
Canister: 4 x 5 L code: 2150005

GRILL & OVEN

Cleaning and degreasing of burnt surfaces

- Dissolves heavy grease stains and scorching
- Safe for light metals and aluminium
- No offensive smell

USE

Product for cleaning and degreasing washable surfaces which are heavily greased and burnt.

DOSAGE

Ready for use

PACKAGING

Spray: 13 x 750 ml code: 5110007
Canister: 4 x 5 L code: 5110005

WASHABLE SURFACES

MAINTENANCE AND POLISHING

INOX Care

Polishing and maintenance of stainless steel

- Creates the protective coat, resistant to the impact of water and dirt
- Gives long-lasting gloss
- Moistens and restores the fresh appearance to badly damaged surfaces

USE

Liquid product based on natural mineral oils for polishing and maintenance of stainless steel machines and equipment.

DOSAGE
Ready for use

PACKAGING
Spray: 13 x 750 ml code: 22400007
Canister: 4 x 5 L code: 2240005

INOX & STEEL

Washing and polishing of stainless steel

- Creates a protective coating resistant to water and dirt
- Protects against hand marks
- Gives a long-lasting shine effect

USE

Product for washing and polishing washable surfaces made of stainless steel.

DOSAGE
Ready for use

PACKAGING
Spray: 13 x 750 ml code: 51200007
Canister: 4 x 5 L code: 5120005

NEUTRALISATION OF ODOURS

AIR Neutralizator

Catering odour neutraliser

- Eliminates foul odours of burns, smoke and food fermentation
- Fast and efficient
- Leaves a fresh and pleasant smell

USE

Liquid product for neutralisation of air in catering and kitchen premises.

DOSAGE
Ready for use

PACKAGING
Spray: 13 x 750 ml code: 72400007
Canister: 4 x 5 L code: 7240005

WASHABLE SURFACES

DISINFECTION

SURFASTERIL DA

Disinfecting product

- Effective in low temperatures and concentrations
- Broad spectrum antibacterial and fungicidal agent
- Safe for light metal, glass and aluminum surfaces

USE

Neutral product for disinfection of machines and devices, washable surfaces and air by spraying, misting or foaming.

DOSAGE
Manual disinfection: 0.2 - 2%
Foam disinfection: 3 - 5%

PACKAGING
Bottle: 15 x 1 L code: 1370001
Canister: 4 x 5 L code: 1370005

DR MANUsteril

Alcohol-based disinfectant

- Has bactericidal and fungicidal properties
- Doesn't require rinsing
- Does not leave odor on the disinfected surfaces

USE

Neutral alcohol-based product for hygienic disinfection of hands and machine or device surfaces.

DOSAGE
Ready for use

PACKAGING
Spray: 13 x 750 ml code: 14400007
Canister: 4 x 5 L code: 1440020

CATERING EQUIPMENT

STEAM AND CONVECTION OVENS

OVEN Cleaner

Washing and degreasing of steam and convection ovens

- Dissolves heavy grease stains and scorching
- For application in automatic cleaning systems
- Effective in each water hardness

USE

Alkaline product for everyday cleaning and degreasing of grease stains in steam and convection ovens provided with the automatic cleaning system.

DOSAGE
Automatic cleaning function

PACKAGING
Canister: 4 x 5 L code: 2160005

OVEN Rinse

Polishing of steam and convection ovens

- Polishes and refreshes washed surfaces
- For application in automatic cleaning systems
- Effective in each water hardness

USE

Acidic product for neutralisation and polishing of steam and convection ovens provided with the automatic cleaning system.

DOSAGE
Automatic cleaning function

PACKAGING
Canister: 4 x 5 L code: 2170005

REFRIGERATORS AND FREEZERS

ACID Cleaner

Cleaning of refrigerators and freezers

- Effectively cleans and neutralises foul odours
- Not aggressive for cleaned surfaces
- Polishes washed surfaces

USE

Acidic product for cleaning refrigerators, freezers, cold stores and other devices and washable surfaces.

DOSAGE
Routine cleaning: 5 - 20 ml / 1 L
Thorough cleaning: 20 - 50 ml / 1 L

PACKAGING
Canister: 4 x 5 L code: 2200005

FREEZER Cleaner

Cleaning of cold stores and freezers

- Not aggressive for cleaned surfaces
- Does not contain flammable compounds
- Effective at the temperature up to -60°C

USE

Neutral product for cleaning of cold stores, freezers, refrigerators without the necessity of switching them off.

DOSAGE
Ready for use

PACKAGING
Canister: 4 x 5 L code: 2210005

CATERING EQUIPMENT

TEA AND COFFEE MAKERS

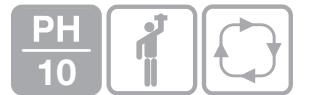

CITRO Cleaner

Washing and degreasing of catering equipment

- Dissolves and removes dirt from proteins and fat
- Allows the equipment to be maintained in the hygienic state of cleanliness
- Effective in each water hardness

USE

Powdered product for cleaning and degreasing of catering equipment: coffee and tea makers, vending machines, kettles, vacuum flasks and brewers.

DOSAGE
5 g - 10 g / 1 L of drinking water

PACKAGING
Bucket: 5 kg code: 2180005

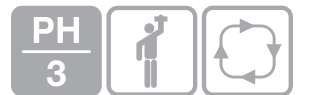

CITRO Descaler

Cleaning and decalcification of catering equipment

- Dissolves and removes mineral deposits, scale, rust, mould spots
- Allows the equipment to be maintained in the hygienic state of cleanliness
- Effective in each water hardness

USE

Powder product based on citric acid for decalcification of catering equipment: coffee and tea makers, industrial dishwashers, kettles, mineral water dispensers, heaters and boilers.

DOSAGE
5 g - 10 g / 1 L of drinking water

PACKAGING
Bucket: 5 kg code: 2190005

DRAINS AND TRAPS

DRAIN Powder

Cleaning of siphons and sewage pipes

- Dissolves heavy oil and grease stains
- Fast and efficient
- Does not destroy the sewerage system

USE

Alkaline powder product for current cleaning and clearing of clogged siphons and sewage pipes.

DOSAGE
10 - 100 grams / 1 cycle

PACKAGING
Bucket: 6 kg code: 2220005

DRAIN FG60

Degreasing and maintenance of sewage systems

- Dissolves heavy oil and grease stains
- Reduces or eliminates the odour problems
- Does not destroy the sewerage system

USE

Liquid biological product intended for degreasing and maintenance of downpipes, siphons, sewage pipes and degreasers.

DOSAGE
50 - 200 ml / daily dose

PACKAGING
Canister: 4 x 5 L code: 2230005

DISHES AND SMALL APPLIANCES

MANUAL WASHING

GLOSS SN.3 L

Cleaning of sensitive dishes in industrial dishwashers

- Dissolves grease and burns
- Safe for light metal, glass and aluminum surfaces
- Chelating properties allow it to be used in hard water

USE

Liquid alkaline product for cleaning and degreasing dishes and glass as well as small appliances which are not resistant to the impact of aggressive detergents in industrial dishwashers.

DOSAGE

Water hardness < 15°dH: 2 - 3 ml / 1 L
Water hardness > 15°dH: 3 - 5 ml / 1 L

PACKAGING

Canister: 11 kg code: 2060010
Canister: 23 kg code: 2060020

GLOSS SN.30 L

Cleaning of dishes and glass in industrial dishwashers

- Dissolves heavy grease stains and scorching
- Does not cause glass corrosion
- Complexing properties prevent the precipitation of calcium deposits

USE

Liquid alkaline product for cleaning dishes and glass as well as small kitchen appliances in industrial dishwashers.

DOSAGE

Water hardness < 15°dH: 2 - 3 ml / 1 L
Water hardness > 15°dH: 3 - 5 ml / 1 L

PACKAGING

Canister: 13 kg code: 2070010
Canister: 25 kg code: 2070020

GLOSS SN.30 CL

Cleaning of dishes and glass in industrial dishwashers

- Dissolves heavy grease stains and scorching
- Does not cause glass corrosion
- Eliminates tea and coffee stains

USE

Liquid alkaline product with active chlorine for cleaning dishes and glass as well as small kitchen appliances in industrial dishwashers.

DOSAGE

Water hardness < 15°dH: 2 - 3 ml / 1 L
Water hardness > 15°dH: 3 - 5 ml / 1 L

PACKAGING

Canister: 12 kg code: 2080010
Canister: 23 kg code: 2080020

DISHES AND SMALL APPLIANCES

RINSING AND POLISHING OF DISHES

GLOSS Brilliant

Rinsing and polishing of dishes and glass in industrial dishwashers

- Leaves perfect gloss and fresh smell
- Prevents smudging and water stains
- Speeds up the even drying of dishes

USE

Liquid product based on citric acid for rinsing and glossing of dishes and glass as well as small kitchen appliances in industrial dishwashers.

DOSAGE

Water hardness < 15°dH: 0.2 - 0.3 ml / 1 L
Water hardness > 15°dH: 0.3 - 0.5 ml / 1 L

PACKAGING

Canister: 10 kg code: 2110010
Canister: 23 kg code: 2110020

GLOSS Neutral

Rinsing of dishes and glass in industrial dishwashers

- Prevents the deposition of smudges and calcium deposits
- Speeds up the even drying of dishes
- Protects dishes and glass from matting

USE

Liquid product for rinsing of dishes and glass as well as small kitchen appliances in industrial dishwashers.

DOSAGE

Water hardness < 15°dH: 0.2 - 0.3 ml / 1 L
Water hardness > 15°dH: 0.3 - 0.5 ml / 1 L

PACKAGING

Canister: 10 kg code: 2120010
Canister: 20 kg code: 2120020

DISHES AND SMALL APPLIANCES

MANUAL WASHING

CLEAN Lemon

Manual washing of dishes

- Dissolves and disperses heavy grease stains and burns
- Efficient foaming, easy rinsing
- Has fresh citrus fragrance

USE

Concentrated liquid product for manual washing and degreasing of dishes, cutlery, glass and small kitchen appliances.

DOSAGE

Manual cleaning: 5 - 20 ml / 1 L

PACKAGING

Bottle: 15 x 1 L code: 2020001
Canister: 4 x 5 L code: 2020005

CLEAN Degreasal

Alkaline washing-degreasing product

- Dissolves and disperses heavy protein and fat stains and burns
- Efficiently foams, leaves no odour
- Safe for light metals, glass and aluminium

USE

Slightly alkaline product with strong degreasing properties for manual and foam washing of small equipment, parts of devices and all washable surfaces.

DOSAGE

Manual washing: 0.5 - 2%
Foam washing: 2 - 5%

PACKAGING

Bottle: 15 x 1 L code: 1250001
Canister: 4 x 5 L code: 1250005

HAND HYGIENE

HYGIENIC HAND WASHING AND DISINFECTION

DR MANUSoft

Soap for hand hygiene

- Dissolves and disperses protein and grease stains
- Odorless
- Contains hand moisturizers

USE

Neutral product for hygienic hand washing when in contact with food.

DOSAGE

Ready for use

PACKAGING

Canister: 4 x 5 L code: 1420005

DR MANUDerm

Neutral hygienic hand wash and disinfectant

- Dissolves and disperses protein and grease stains
- Odorless
- Broad spectrum antibacterial and fungicidal agent

USE

Neutral product for hygienic hand washing and disinfection when in contact with food.

DOSAGE

Ready for use

PACKAGING

Canister: 4 x 5 L code: 1430005

DR MANUSteril

Alcohol-based disinfectant

- Broad spectrum antibacterial and fungicidal agent
- Doesn't require rinsing
- Does not leave odor on the disinfected surfaces

USE

Neutral alcohol-based product for hygienic disinfection of hands and machine or device surfaces.

DOSAGE

Ready for use

PACKAGING

Spray: 13 x 750 ml code: 1440007
Canister: 4 x 5 L code: 1440005

AUXILIARY DEVICES

HAND HYGIENE

ABS DOSING UNIT

Elbow-operated dispenser for soap and alcohol-based hand disinfectants.

- Easy operation of the dispenser
- Possibility to adjust dosage
- Resistance to hitting and chemical effects
- Capacity: 1 L
- Material: ABS

INOX DOSING UNIT

Elbow-operated dispenser for soap and gel alcohol-based hand disinfectants.

- Easy operation of the dispenser
- High hygienic value
- Resistance to hitting and chemical effects
- Capacity: 1 L
- Material: acid resistant steel

FOAM CLEANING AND DISINFECTION SYSTEMS

HYDROFOAMER

A device for foam cleaning of washable surfaces.

- Accurate dosage adjustment
- Supply: tap water - 3 bar
- Capacity: 2.8 L
- Efficiency: 8 L / min
- Material: PE plastic

SINGLE-STATION FOAM CLEANING SYSTEM

Single-station foaming system.

- Can be easily mounted on the wall or a trolley
- The set includes 15 running metres of a hose and multi-purpose foaming-rinsing gun
- Clean water rinsing function
- Possibility of connecting two products: cleaning and disinfection
- Efficiency: 10 L / min
- Material: PE plastic

AUXILIARY DEVICES

DOSING AND FILLING SYSTEMS

FLOW DOSING UNIT

The flow dosing unit for collection, dissolution and proportional dosing of chemical products.

- Can be easily mounted on the wall or a trolley
- Possibility of dosing 4 chemical products
- Accurate dosage adjustment
- Efficiency: 4 - 16 L / min
- Material: PE plastic

FLOW DOSING UNIT

The flow dosing unit for fast filling of cleaning machines with vessels up to 120 L.

- Can be easily mounted on the wall or a trolley
- Accurate dosage adjustment
- Efficiency: 15 L / min
- Material: PE plastic

INDUSTRIAL DISHWASHER DOSING SYSTEMS

INTEGRATED DOSING SYSTEM

Automatic dispensing system for the industrial dishwasher for the cleaning and polishing product.

- Dosing 1 or 2 chemical products
- Accurate dosage adjustment
- Efficiency: 30 - 200 ml / min
- Supply: 230 V - 50 Hz

INTEGRATED DISPENSING SYSTEM FOR THE TUNNEL DISHWASHER

Automatic dispensing system for the industrial dishwasher for the cleaning and polishing product.

- Dosing of up to 2 chemical products
- Accurate dosage adjustment
- Integrated measurement and temperature compensation
- Dosing based on conductivity
- Efficiency: 60 L / min

CUSTOMER SERVICE

▪ TELEPHONE SERVICE

+48 62 767 23 55

If you have any questions regarding the offer and the application of products our commercial office is at your disposal between 8.00 a.m. and 4.00 p.m.

▪ INTERNET SERVICE

www.draco-bis.pl

The complete documentation of all products is available at our website and is updated every day, the available documents include:

- Material safety data sheets
- Information sheets
- National Hygiene Institute certifications and Health Ministry permits
- Safe storage instructions
- Catalogues

▪ NEWSLETTER

All the latest information is available to you at the "FOR CUSTOMER" section. Entry is at the bottom of the website. Available information:

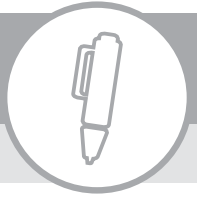

- Price list
